## Visits

9 visits completed between 8/4/2026 and 9/30/2026.

## Objective measures

Right knee range of motion 0-112 degrees (95 degrees on 8/11). Quadriceps strength 4/5. Timed Up and Go 9.8 seconds.

## Functional status

Independent ambulation without assistive device; stairs with handrail.

## Goals

1. Knee flexion of 120 degrees — in progress.
2. Community ambulation 30 minutes — in progress.
3. Stairs reciprocally without rail — not yet met.

## Plan

Continue physical therapy twice weekly for 4 weeks with home exercise program.
