Medication Reconciliation Record

Date	8/26/2026 13:00 UTC
Reconciled by	Nadia Hassan, PharmD — Clinical Pharmacy
Reason	Post-discharge medication reconciliation
Sources compared	Hospital discharge medication list; patient-provided bottles; patient interview

Reconciled medication list

Medication	Prescribed regimen	Source list	Patient report	Reconciled action
Atorvastatin	40 mg nightly	Home list (continued)	Taking as prescribed	Continue
Omeprazole	20 mg once daily	Home list (continued)	Taking as prescribed	Continue
Metoprolol succinate	50 mg once daily	Discharge list	Taking as prescribed	Continue
Apixaban	5 mg twice daily	Discharge list	Taking as prescribed	Continue
Aspirin	81 mg once daily	Stopped 8/19/2026	Still taking	Stop — patient instructed

Discrepancy

Aspirin 81 mg daily was discontinued at hospital discharge on 8/19/2026 when apixaban was started. At this visit the patient reported continuing aspirin. Patient instructed to stop aspirin; cardiology notified.
